

## Suggestion for LC engagement activities to be part of this monumental movement

As the millennials of today, social media platforms are what we will be targeting at creating impacts globally. Therefore, LC members are welcome to take videos or pictures or come up with any interactive creations and share them on IFSA regional or main group page with hashtags suggested below.

**Poster:** Put up posters around your LC to create awareness about the climate strike. Suggestion of location: front of the building or street lights leading to the building

(LC members are expected to clean up the posters after the event)

### Local climate strike

- Organise a march with your friends and LC or attend one of the scheduled marches (see [schoolstrike4climate.com](http://schoolstrike4climate.com))
- Contact local schools to have a moment of silence to reflect on human impact on the environment

(Disclaimer: IFSA does not condone illegal or disrespectful behaviour)

### Local Community engagement

- Clean up [insert the name of a local park or town] day
- Talk to your friends, families or work colleagues about small changes they can do to make a difference (such as taking public transport rather than driving)
- Compile a list of changes your LC could make to have a lower carbon footprint

### Posting strategy:

Tagging  
@ifsadonet  
@strikeclimate

### Hashtags:
